Roadmap

Ideagen roadmap

Product roadmap

Q2 2023

Q3 2023

Q4 2023

Future

- **Workflow Guides & Prompts in Reporting** providing the ability to add prompts and assistance intended to help guide the user (i.e. when to start a workflow or close a report)
- **US English Culture** introducing the ability to select the preferred date format for users in this locale
- **Make it easier to maintain form designs by Improving the visibility of Rule Effects in the Form Designer**

Product roadmap

- **Home Page customization** including support for links to your help resources, direct from the News Ticker and user ordering of sections
- **Workflow Guidance** to support links to your help resources
- **Integration with Ideagen Home**

Product roadmap

- Improved user experience for the **selection of standard events** when there are many events to choose from
- **Support / maintain formatting:** both in the user interface and emails
- Usability improvements in the **Mobile home page** to better suit the most common functions users use

Q3 2023

Future

We continually assess customer feedback and are scoping the following customer suggestions:

Usability & UX

- Improved messaging when a team member has claimed ownership of a task and a user navigates to a record
- Make it easy to assign a task to a group member from the membership list
- Hide data retrieval warnings from all except admins
- Enhanced Response Feedback

New Features

- Allow Safety Reports to be Validated before they are Submitted
- Platform API improvements to better support integrations

Configurability

- The ability to customise text on the report submission receipt email

Regulatory & Compliance

- ECCAIRs 2.0 – Investigating approaches to accommodate the new API driven solution

Mobile App

- Support 'Forgot my Password' in Mobile
- Support 'tooltips' in Mobile

Innovation

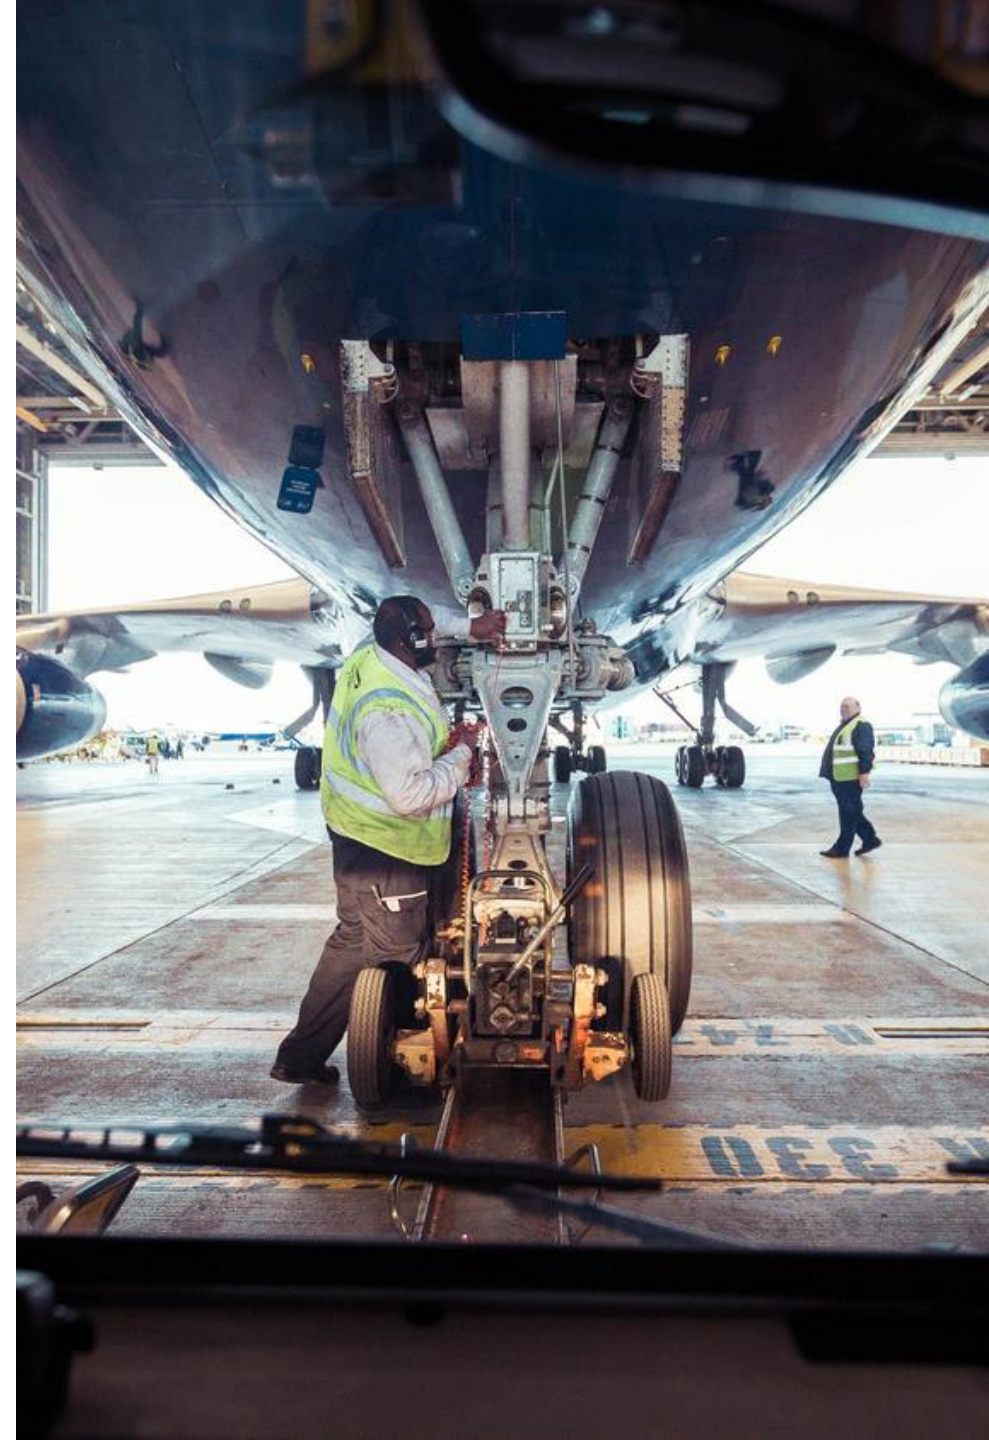

Ideagen engines of innovation

Customer Ideation

Customers are at the heart of everything we do so our short term roadmaps are heavily influenced by customers.

In the past releases customer ideas contribute on average more than 60% of our functional enhancements.

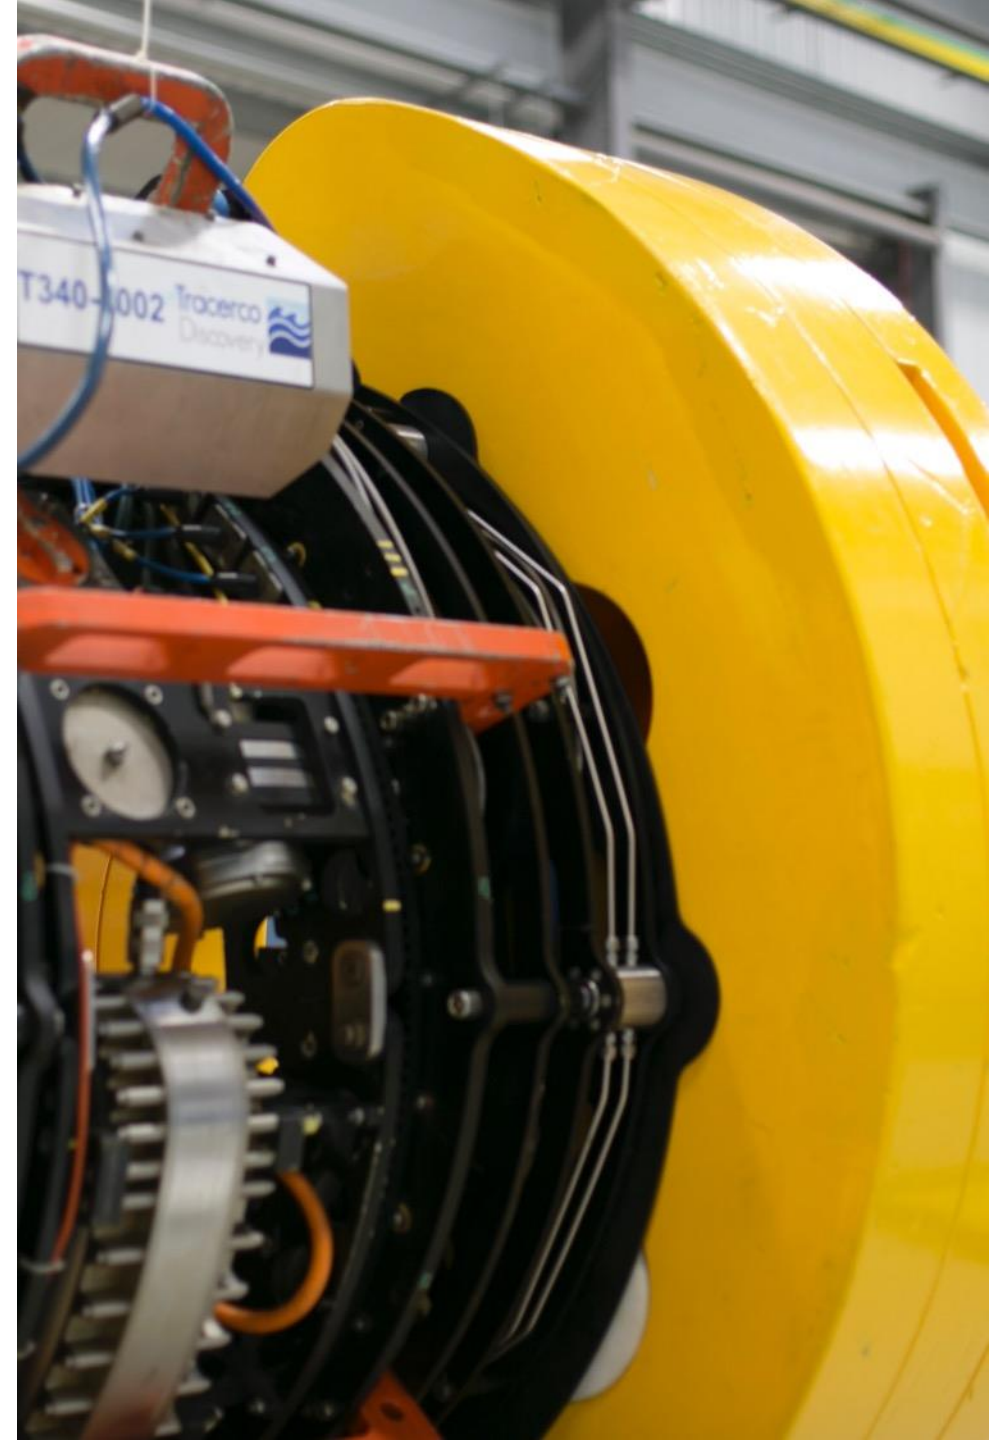

Subject Matter Expertise

Ideagen prides itself on our expertise and thought leadership.

Our Product team are both passionate product people and subject matter experts.

This means that the vision they set for their products are built on strong foundations with an eye to the future.

Intelligent

Our continued investment in AI and automation means that we will continue to add value for our customers by adding intelligent automation across our solutions.

Using technologies such as computer vision, NLP, neural networks and big data we will continue to innovate across our portfolio.

Thank you
