Product roadmap

Q3 2022 | Q4 2022 | Q1 2023 | Future

- **Speed and Reliability of 'Export to PDF' with improvements to the Background Processor**

- **Improving speed of transfer of data to both Jaspersoft and widgets with an update to the Cassini service**

- **55.3 – Quality of Life Updates**
  - Technical Improvements
  - Small usability improvements

Ideagen

Product roadmap

| Q3 2022 | Q4 2022 | Q1 2022 | Future |

- **"Tabular Security" for Reporting**
  - Enables the original reporter to view the information they reported giving them the confidence that the issue is being dealt with whilst also protecting the visibility of sensitive information recorded as part of the on-going investigation
  - Allows you to control more granularly what the original reporter (and other roles) can see/do in a report
  - Achieved by allowing you to restrict access to the 'Tabs' that contain investigation workflow and classification information

Product roadmap

Q3 2022	Q4 2022	Q1 2023	Future

As part of our continual assessment of customer feedback we are currently scoping the following customer suggestions:

- **Improved Logon Experience for SSO** by prioritizing the SSO logon interactions over the native ones to make it clear and intuitive how to log on

- **Ability to Export the Task List** enabling a user to export their list of tasks so they can report or prioritise them outside of the application

- **Add Workflow Guides & Prompts** adding prompts and assistance to help guide the user when to start or proceed with a workflow

- **Ability to see at-a-glance the overall checklist progress in an Audit** when using several checklists by aggregating the progress at the top of the checklist area

Product roadmap

Q3 2022	Q4 2022	Q1 2023	**Future**

- **Prevent accidental selection of the wrong matrix** by defining Risk Matrixes suitable for use for a Report Form

- **Make it easier to maintain form designs by Improving the visibility of Rule Effects** in the Form Designer

- **US English Culture** introducing the ability to select the preferred date format for users in this culture
